FAQ: Does Arundel Lodge provide services for Military Veterans?

Arundel Lodge has always served veterans in our Outpatient Mental Health Clinic and Psychiatric Rehabilitation Programs. Due to a rising influx in referrals of veterans, our goal is to develop programs that are tailored specifically to meet the unique needs of veterans, and we have been raising funds to do so. With the help of donors, our Outpatient Mental Health Clinic staff has been able to receive specialized training on military culture and evidence-based therapies to address veteran mental health and trauma.

Volunteer Opportunities

Over the past 25 years, Leadership Anne Arundel (LAA) has become the premier leadership training & networking institute in the Anne Arundel County community. With five robust training programs, LAA is able to offer multiple options to not only local professionals, but local high school students as well.

This year, Arundel Lodge was chosen as one of their community projects. A group of their graduates adopted our organization as their own, making a large impact on one of our residences by giving it a much-needed upgrade. These LAA students and their fellow volunteers from M&T Bank took time out of their busy schedules to paint, deep clean, and landscape the residence chosen, creating a new and polished feel to this house that seven of our residents call home.
